DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

The drawings and specifications are objected to as detailed below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: **(S1109)** and **(S1206)**. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective

action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: **(SW1)** and **(SW2)**. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities: element **(S304)** is briefly mentioned in the specifications, but is not adequately described in detail.

Appropriate correction is required.

Claim Objections

5. Claims 42-43 are objected to because of the following informalities: These claims are dependent on claim 1, which has been cancelled. The Examiner suspect the applicant intended for these claims to be dependent on claim 41.

Appropriate correction is required.

Allowable Subject Matter

6. The following is a statement of reasons for the indication of allowable subject matter.

Claims 41-43 appear to be allowable subject matter. The aforementioned claims appear to be novel and inventive for the following reasons. Regarding Sakamoto et al (US 2003/0137597), the reference allows for the use of an image acquired with a flash and an image acquired without a flash. However, the reference does not allow for the use of multiple images acquired without a flash. Regarding Ejima (US2002/0122133 A1), the reference allows for the use of multiple images, but utilizes variable exposure times rather than the existence or non-existence of a strobe. None of the referenced materials make use of all the limitations as directly recited in independent claim 41.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Art Unit: 4177

Lu, Cheng (14th Color Imaging Conference: Color Science and Engineering Systems, Technologies, Applications); "Automatic compensation for camera settings for images taken under different illuminants"

Sugahara et al (US 6,778,210 B1) "Image pickup apparatus with blur compensation"

Washisu (US 6,272,289 B1) "Camera"
